ABOUT ME

I am a B.Tech CSE student at VIT Chennai and a passionate developer who enjoys building end-to-end applications using the MERN stack. I also explore AI/ML with Python and focus on creating practical, user-centric projects. With certifications in full-stack development and AI foundations, I aim to grow into a versatile software engineer skilled in backend, frontend, and AI systems.

SKILLS

Programming Languages: Python, JavaScript, C
Web Development: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js
AI / ML: NumPy, Pandas, Basic ML algorithms, OCR
Tools: Git, GitHub, Postman, VS Code

EDUCATION

B.Tech in Computer Science and Engineering   VIT Chennai | 2023-2027

Class XII (Science) Bal Vidya Mandir School, Sambhal • 2022
Percentage: 91.2%

Class X   Bal Vidya Mandir School, Sambhal • 2020
Percentage: 94.8%

PROJECTS

Project Partner – Project Listing & Collaboration Platform   Live link

A MERN-stack platform where users can post projects, send join requests, and collaborate efficiently. It includes real-time notifications and messaging using WebSockets, a structured join-request workflow, project closing controls to stop new requests, and Cloudinary-based image storage for project visuals.

Prescripto – Healthcare Appointment & Management Platform   Live link

A full-stack healthcare system where users can book appointments with specific dates and time slots. It provides separate dashboards for users, doctors, and admins to manage appointments, doctor availability, patient records, and secure authentication for smooth scheduling and communication.

Forever - Ecommerce Site   Live link

Built a full-stack e-commerce app with secure authentication (JWT, bcrypt), product browsing, cart, order management, and an admin dashboard. Integrated Cloudinary for media storage and designed a responsive React-Redux frontend.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Full Stack Web Development Certification
